

M-AIS FrameAPS 5.X (Editor)

Unstructured AIP Editorial Course

Who should attend the course?

This course provides the definitive introduction to the usage as an editor of AIP content held in the FrameAPS system. It is aimed at editorial staff with the responsibility for keeping AIP content up-to-date. It is suitable for all AIP staff.

How long is the course?

3 Days.

What are the benefits of attending?

Delegates will learn to navigate the FrameAPS File menus, dialog boxes, context-sensitive menus and icons to gain full access to the AIP editorial features.

Delegates will learn to perform all tasks involved in the creation and editing of the AIP and its component parts and files using the AIP File Management tools.

Delegates will learn to place links to the static data via the APS datalink placement tools and by using automatic table generation tools.

What are the prerequisites?

You should have attended either the "Working with Unstructured Documents" or "Working with Structured Documents" course or have a similar level of knowledge of FrameMaker.

You should have a working knowledge of the AIP and its related documentation in Annex 15 and Doc 8126.

You need to be familiar with PCs and the Windows environment.

Course Outline
